Help create habitat for pollinators in Lewis & Clark County!

The Lewis & Clark Conservation District Pollinator Initiative Program offers FREE wildflower seed mix to landowners in the county to plant pollinator plots on their property.

These plots help create critical habitat and food sources for Montana's native pollinators and other beneficial insects. Since our program started in 2020, we have worked with over 250 participants, and have distributed over 15 acres worth of seed.

*Property must lie within Lewis and Clark County boundaries

****Priority will be given to applicants willing to assist with follow-up monitoring.** If you are interested in participating in 2027, please fill out the information below and return to us.

Name: _____ Phone: _____

Email Address: _____

Physical Address with zip*: _____

Choice of seed mix: ☐ Native ☐ Back Yard (Urban) ☐ Conservation

Property Size (acres): _____

Plot size (square feet): ☐ 100 sf ☐ 250 sf ☐ 500 sf ☐ 1000 sf ☐ 1500 sf ☐ 2500 sf

Describe Site Conditions (bare ground, forested, grasses, weeds, etc.):

_____

Please check all that apply:

☐ Noxious Weeds or other existing vegetation, including grass, is present

☐ Property is adjacent to agricultural field(s)

☐ Irrigation is available on the site

☐ I commit to site preparation requirements

☐ I commit to long-term maintenance

☐ I am willing to help LCCD with self-monitoring efforts (periodic photos and/or plot surveys)
